

A close-up, low-angle shot of a wooden deck made of wide-plank boards. In the upper portion of the frame, the legs and lower seats of several outdoor chairs are visible. The chairs have light-colored, textured fabric seats and wooden frames. The deck boards are a light, natural wood color with visible grain patterns. The lighting is soft and even, suggesting an outdoor setting during the day.

MILLBOARD DECKING

Transform your outdoor space and create unforgettable moments with Millboard's Resin Mineral Composite decking (RMC), where beauty meets durability.

Disappearing screws
Durafix screws are virtually hidden beneath the unique Lastane surface.

Natural wood look
Molded from selected hardwood for an organic, realistic wood-grain appearance.

High slip-resistance
Lower slip potential than wood due to the pliable Lastane layer.

Low maintenance
No staining or oiling. Only seasonal cleaning is required.

VIEW DEMO
Scroll down the page to "Disappearing screws"

ENVELLO SIDING

◀ BOARD & BATTEN⁺
LIMED OAK

Reimagine your outdoor environment with Millboard's Resin Mineral Composite (RMC) Envello siding, where elegance harmonizes with resilience. Crafted for enduring quality, Envello withstands the test of time, enhancing any outdoor space.

Natural wood look
Molded from selected hardwood for an organic, realistic wood-grain appearance.

Low maintenance
No staining or oiling. Only seasonal cleaning required.

WUI Certified
Verified as suitable for use in Wildland Urban Interface areas, when installed in accordance with the install guide.

ENHANCED GRAIN ~
LIMED OAK - OUTDOOR KITCHEN

Unlike other composites, Millboard possesses the remarkable capability to be shaped, enabling you to seamlessly craft stunning curved structures without any visible fasteners. This is thanks to the distinctive composition of Millboard's Resin Mineral Composite (RMC) core and its flexible Lastane surface layer.

Available across all the range including flexible edgings and fascia.
